In addition, its intention is to upgrade the quality of research work among the faculty members involved in Science & Humanities, Commerce, Management Education and the allied fields to ensure that all the research work undertaken, is gainfully employed by the industry, society and corporate world. Its operational objective is to disseminate, strengthen and enhance knowledge, across all sections of the society.

## About the FDP

Guidelines for publishing ethics were created to guarantee high-caliber scientific publications, public trust in scientific research, and appropriate recognition of authors' original ideas and contributions. Academics, Research Scholars, and Postgraduate students will have a significant opportunity to connect and exchange their ideas of publication since transparency is another essential but frequently overlooked part of the publication process. This will help everyone understand the concept of publications and its ethics too. Register to the FDP for an all-encompassing session aimed at improving your publication, research grant, and scientific writing skills, among other things. This session has been carefully crafted to equip participants with the necessary skills and knowledge to convert research data into material that may be published. Developing your writing and editing skills will greatly increase the likelihood of your paper being accepted by prestigious journals.

## Objectives

- Improve scientific writing and manuscript editing skills
- Augment acceptance of your research paper in reputed journals
- Creation of Professional IDs in the various Academic forum
- Discover legitimate publication options and avoid publications in predatory journals
- Gain expertise in drafting research proposals that align with funding agencies & policies

## Who can participate?

Faculty Members, Research Scholars, Academic Professionals working abroad & PG Students from any Discipline.
